Pred. No. is the number of results predicted by chance to have a score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.

SUBUNIT: THE MAIN SUBUNITS OF COMPLEX B-C1 ARE: CYTOCHROME B, CYTOCHROME C1 AND THE RIESKE PROTEIN.

SIMILARITY: BELONGS TO THE CYTOCHROME B FAMILY.
                                                                                                                                                                                                                                                                                                                                                                     C. R. SOC. LOND., B, Biol. Sci. 243:99-107(1991).
FUNCTION: COMPONENT OF THE UBIQUINOL-CYTOCHEME C REDUCTASE COMPLEX (COMPLEX III OR CYTOCHROME B-C1 COMPLEX), WHICH IS A RESPIRATORY CHAIN THAT GENERATES AN ELECTROCHEMICAL POTENTIAL
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    an email to license@isb-sib.ch).
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              4
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    non-profit
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   IPR000729; PMP22_Claudin
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       82

Nature 393:537-544(1998).
                                                  "Whole genome comparison of Mycobacterium tuberculosis clinical and laboratory strains.";
Submitted (APR-2001) to the EMBL/GenBank/DDBJ databases.
-i-CATALYTIC ACTIVITY: 3-PHOSPHOGLYCERATE + NAD(+) = 3-PHOSPHOHYDROXYPYRUVATE + NADH.
-i-PATHWAY: FIRST COMMITTED STEP IN THE "PHOSPHORYLATED" PATHWAY OF L-SERINE BIOSYNTHESIS.
-i-SIMILARITY: BELONGS TO THE D-ISOMER SPECIFIC 2-HYDROXYACID DEHYDROGENASES FAMILY.
                                                                                                                                                                                                                                                                                                                                                  Fleischmann R.D., Alland D., Eisen J.A., Carpenter L., White O., Peterson J., DeBoy R., Dodson R., Gwinn M.L., Haft D., Hickey E., Kolonay J.F., Nelson W.C., Umayam L.A., Ermolaeva M.D., Salzberg Delcher A., Utterback T., Weidman J., Khouri H., Gill J., Mikula

"Complete nucleotide sequence of recb, the structural gene for the alpha subunit of Exonuclease V of Escherichia coll.";

Nucleic Acids Res. 14:8583-8594(1986).

1- FUNCTION: REQUIRED FOR EFFICIENT DNA REPAIR: IT CATALYZES THE UNWINDING OF DOUBLE-STRANDED DNA AND THE CLEAVAGE OF SINGLE-STRANDED DNA AND IT STIMULATES LOCAL GENETIC RECOMBINATION.

ALL OF THESE ACTIVITY: EXONUCLEOLYTIC CLEAVAGE (IN THE PRESENCE OF ATP. 1-1-CATALYTIC ACTIVITY: EXONUCLEOLYTIC CLEAVAGE (IN THE PRESENCE OF ATP) IN EITHER 5'. TO 3'-OR 3'-TO 5'-DIRECTION TO YIELD 5'-
